Education

Ph.D. Candidate, Penn State University (08/2011 – 12/2014 [expected])

Psychology and Language Science

Dissertation: *Using syntactic priming to identify cross-language constraints in bilingual language processing*

Advisors: Judith Kroll & Paola Dussias

M.S., Penn State University (08/2011)

Psychology

Thesis: *The effect of syntactic constraints on parallel activation of words in the bilingual's languages*

Advisors: Judith Kroll & Paola Dussias

B.A., cum laude, University of Massachusetts, Amherst (05/2007)

Linguistics and Psychology; Minor in German

Thesis: *Processing Reverse Sluicing*

Advisors: Charles Clifton & Lyn Frazier

Funding and Awards

National Institutes of Health Ruth L. Kirschstein National Research Service Award (NRSA), FHD082983A (Co-PIs, Debra Titone, Denise Klein): *Determining the Neurocognitive Consequences of a Natural Switch in Language Immersion Context: Evidence from the Uniquely Bilingual City of Montreal*, 2015-2018 (Pending IRG Review).

National Science Foundation Doctoral Dissertation Research Grant, BCS- 1251896 (PI, Judith F. Kroll, Co-PI, Paola Dussias): *Using syntactic priming to identify cross-language constraints in bilingual language processing*, 2013-2014 (\$17,513).

Penn State University Liberal Arts College Dissertation Support Grant (RGSO): *Using syntactic priming to identify cross-language constraints in bilingual language processing*, 2013.

Penn State University Center for Language Science PIRE Fellowship: *The effect of immersion on cross-language activation during visual word recognition*, 2011.

National Science Foundation Graduate Research Fellowship Program (GRFP): *The effect of syntactic constraints on parallel activation of words in the bilingual's languages*, 2011 (Honorable Mention).

Research Experience

Graduate Research Assistant (08/2009 – present)

Center for Language Science – Psychology Department, Penn State University

Supervisors: Judith Kroll & Paola Dussias

Mentor and supervise undergraduate students in lab; conduct experiments; extract and analyze data.

Research Technologist (08/2007 – 08/2009)

Center for Language Science – Psychology Department, Penn State University

Supervisors: Judith Kroll & Paola Dussias

Program psycholinguistics experiments (including eye-tracking, behavioral); test participants; set-up new lab spaces (including rooms with ERP and behavioral setups); webmaster: create and maintain web-site for the CLS.

Research Assistant (08/2006 – 05/2007)

Psychology Department, University of Massachusetts, Amherst

Supervisors: Charles Clifton & Lyn Frazier

Conceptualize, design, program, and debug psycholinguistics experiments; test participants; extract and analyze data; write in-depth analysis of results.

- Thesis investigates processing differences between instances of reverse sluicing and filler-gap relations.

Teaching Experience

Lecturer: Data Processing and Analysis for Language (05/2012)

Scientists using the R Statistical Package

Spanish, Italian, and Portuguese, Penn State University

Lecturer: Introduction to Linguistics (09/2012 – 12/2012)

Program in Linguistics, Penn State University

Guest Lecturer: Introduction to Linguistics (11/2012)

Program in Linguistics, Penn State University

“Putting the psycho in linguistics”

Teaching Assistant: MATLAB for Behavioral (01/2012 – 05/2012)

Scientists

Psychology Department, Penn State University

Professor: David Rosenbaum

**Teaching Assistant: Psychology as a Science
and Profession**

(01/2012 – 05/2012)

Psychology Department, Penn State University

Professor: Andrew Peck

Tutorial: The R statistical package

(9/2008)

Center for Language Science, Penn State University

Tutorial: Using SR-Research Experiment Builder software

(2/2008)

Center for Language Science, Penn State

Academic Service

Graduate Student R-ticle Group – Co-founder

(Fall 2009 – present)

Center for Language Science, Penn State University

A student organization dedicated to scholarly and professional growth of graduate students interested in language science. The group holds weekly meetings designed to review new and classic research in the field; to discuss statistical methods and practices; and to learn new software and programming packages such as the R language.

Young Scholar Speaker Series – Organizer

(Fall 2011)

Center for Language Science, Penn State University

An event led by graduate students. Organizing the event involves inviting a speaker, soliciting funding from affiliated departments, organizing travel, planning a graduate poster series, and organizing the invited colloquia.
